Contents

NUMBER 1, JANUARY 1989

1 *L. Dahlström:* Electromyographic studies of craniomandibular disorders: a review of the literature
21 *P. Kirveskari, Y. le Bell, M. Salonen, H. Forssell and L. Grans:* Effect of elimination of occlusal interferences on signs and symptoms of craniomandibular disorder in young adults
27 *D. J. Witter, P. van Elteren, A. F. Käyser and M. J. M. van Rossum:* The effect of removable partial dentures on the oral function in shortened dental arches
35 *M. Addy and P. Mostafa:* Dentine hypersensitivity. II. Effects produced by the uptake *in vitro* of toothpastes onto dentine
49 *S. W. H. Yuen, R. Y. P. Ma, Y. C. Chung and J. C. C. Hwang:* Real-time signal acquisition and analysis for clinical dental electromyography using a microcomputer-based system
57 *G. J. Pearson and C. M. Longman:* Water sorption and solubility of resin-based materials following inadequate polymerization by a visible-light curing system
63 *M. Naeije, R. S. McCarroll and W. A. Weijs:* Electromyographic activity of the human masticatory muscles during submaximal clenching in the intercuspal position
71 *R. A. Moss, T. W. Lombardo, J. Martin Hodgson and K. O'Carroll:* Oral habits in common between tension headache and non-headache populations
75 *G. Hoad-Reddick:* Oral pathology and prostheses—are they related? Investigations in an elderly population
89 *K. D. Jamani, E. Harrington and H. J. Wilson:* The determination of elastic recovery of impression materials at the setting time
101 *S. Chong-Shan and W. Hui-Yun:* Value of EMG analysis of mandibular elevators in open-close-clench cycle to diagnosing TMJ disturbance syndrome
108 Announcement

NUMBER 2, MARCH 1989

109 *D. C. A. Picton and S. J. Creasey:* Some causes of failure of crowns, bridges and dentures
119 *R. Tuominen, K. Ranta and I. Paunio:* Wearing of removable partial dentures in relation to periodontal pockets
127 *B. J. Zulqarnain, R. Furuya, B. Hedegard and T. Magnusson:* The silent period in the masseter and the anterior temporalis muscles in adult patients with mild or moderate mandibular dysfunction symptoms
139 *R. M. Watson and S. N. Bhatia:* Tooth positions in the natural and complete artificial dentitions, with special reference to the incisor teeth: an interactive on-line computer analysis

155 *Shi Chong-Shan and Wang Hui-Yun:* Postural and maximum activity in elevators during mandible pre- and post-occlusal splint treatment of temporomandibular joint disturbance syndrome
163 *R. S. McCarroll, M. Naeije, Y. K. Kim and T. L. Hansson:* The immediate effect of splint-induced changes in jaw positioning on the asymmetry of submaximal masticatory muscle activity
171 *R. S. McCarroll, M. Naeije, Y. K. Kim and T. L. Hansson:* Short-term effect of a stabilization splint on the asymmetry of submaximal masticatory muscle activity
177 *T. Horio and Y. Kawamura:* Effects of texture of food on chewing patterns in the human subject
185 *M. A. Tavas and D. C. Watts:* The use of a cone and plate viscometer for determination of flow properties of unfilled resins and etching gels
193 *G. Tryde, A. Tallgren and H. Mizutani:* A 2-year electromyographic study of patients with an immediate complete upper and a partial lower denture
203 *E. Greener and S. Duke:* Physical properties of two new crown and bridge veneering resins
211 *T. R. Katona:* The effects of cusp and jaw morphology on the forces on teeth and the temporomandibular joint

NUMBER 3, MAY 1989

221 *K. D. B. Faulkner:* Preliminary studies of some masticatory characteristics of bruxism
229 *Wang Shaoan, Chen Anyu and Yu Zineng:* Alveolar ridge augmentation with bioactive glass ceramics: a histological study
241 *K. D. Jamani, E. Harrington and H. J. Wilson:* Rigidity of elastomeric impression materials
249 *R. Miralles, B. Berger, W. Ide, A Manns, R. Bull and A. Carvajal:* Comparative electromyographic study of elevator muscles in patients with complete dentures and natural dentition
257 *J. N. Bezuur, L. L. M. H. Habets and T. L. Hansson:* The recognition of craniomandibular disorders; condylar symmetry in relation to myogenous and arthrogenous origin of pain
261 *M. Hashimoto, Y. Akagawa, H. Nikai and H. Tsuru:* Ultrastructure of peri-implant junctional epithelium on single-crystal sapphire endosseous dental implant loaded with functional stress
271 *A. W. J. Muller, D. A. J. De Groot and C. L. Davidson:* The determination of the electrical potential of a metallic restoration in the oral cavity
279 *D. Vallon, M. Nilner and S. Kopp:* Assessment of occlusal interferences
287 *M. P. Lekka, L. Papagiannoulis, G. C. Eliades and A. A. Caputo:* A comparative *in vitro* study of visible light-cured sealants
301 *C. J. Arcoria, J. P. DeWald, C. R. Moody and J. L. Ferracane:* A comparative study of the bond strengths of amalgam and alloy–glass ionomer cores
309 *G. R. Barker, D. G. Wastell and A. J. Duxbury:* Spectral analysis of the masseter and anterior temporalis: an assessment of reliability for use in the clinical situation
315 *F. S. F. Mong:* Experimental studies on masseter grafts in rats: comparison of donor muscles

NUMBER 4, JULY 1989

323 *J. W. Osborn:* The temporomandibular ligament and the articular eminence as constraints during jaw opening

335 *B. E. Kanoy, D. A. Felton, J. T. White and C. Bayne:* Effects of the porcelain firing sequence on the bond strengths of cements

345 *E. Yontchev, B. Sandström and G. E. Carlsson:* Dietary pattern, energy and nutrient intake in patients with oro-facial discomfort complaints

353 *K. D. Jamani, E. Harrington and H. J. Wilson:* Consistency, working time and setting time of elastomeric impression materials

367 *J. N. Bezuur, T. L. Hansson and T. M. Wilkinson:* The recognition of craniomandibular disorders—an evaluation of the most reliable signs and symptoms when screening for CMD

373 *A. Nakasima, K. Higashi and M. Ichinose:* A new, simple and accurate method for evaluating masticatory ability

381 *P. J. B. Leempoel, G. M. J. M. van Rossum, A. F. J. de Haan and A. G. M. Reintjes:* Bridges in general dental practices: a descriptive study of the types of bridges and patients

387 *P. J. B. Leempoel, M. A. Van't Hof and A. F. J. de Haan:* Survival studies of dental restorations: criteria, methods and analyses

395 *K. D. B. Faulkner:* Preliminary studies of mandibular movement at initial tooth contact

401 *L. L. M. H. Habets, J. N. Bezuur, V. Jimenez Lopez and T. L. Hansson:* The OPG: an aid in TMJ diagnostics. III. A comparison between lateral tomography and dental rotational panoramic radiography (Orthopantography®)

407 *Xu Hengchang, Wang Tong, P. A. Vingering and Song Shiqing:* A study of surfaces developed on composite resins *in vivo* during 4·5 years; observations by SEM

417 *C. Krenkel and I. Grunert:* The mandibular condyles in the submentovertex projection—their morphology and topographical relationship to the foramina spinosa

425 Book review

NUMBER 5, SEPTEMBER 1989

427 *N. H. J. Creugers, P. A. Snoek, M. A. van't Hof and A. F. Käyser:* Clinical performance of resin-bonded bridges: a 5-year prospective study. I. Design of the study and influence of experimental variables

437 *M. Gordon, R. Liberman, A. Ben-Amar and S. Eldar:* Joint strength between two layers of different amalgam types condensed successively

441 *R. S. McCarroll, M. Naeije and T. L. Hansson:* Balance in masticatory muscle activity during natural chewing and submaximal clenching

447 *I. P. van Rossen, C. de Putter and K. de Groot:* Investigation of the surface texture of hydroxylapatite-coated dental implants by means of SEM

451 *C. F. Driscoll, G. D. Woolsey, T. G. Reddy and R. G. Craig:* Solubility of zinc oxide-eugenol and calcium hydroxide cements in simulated dentinal fluid

457 *L. Barrenäs and P. Ödman:* Myodynamic and conventional construction of complete dentures: a comparative study of comfort and function

467 *P. J. Knibbs and A. W. G. Wells:* A laboratory and clinical evaluation of three dental luting cements
475 *J. A. Williams and R. W. Billington:* Increase in compressive strength of glass ionomer restorative materials with respect to time: a guide to their suitability for use in posterior primary dentition
481 *A. S. El-Gheriani, A. L. Davies and R. B. Winstanley:* The gothic arch tracing and the upper canine teeth as guides in the positioning of upper posterior teeth
491 *S. F. Rosenstiel, S. S. Porter and W. M. Johnston:* Colour measurements of all ceramic crown systems
503 *M. Tzakis, G. E. Carlsson and S. Kiliaridis:* Effect of chewing training on mandibular postural position
509 *J. L. Drummond:* Cyclic fatigue of composite restorative materials

NUMBER 6, NOVEMBER 1989

521 *N. H. J. Creugers, P. A. Snoek, M. A. van't Hof and A. F. Käyser:* Clinical performance of resin-bonded bridges: a 5-year prospective study. II. The influence of patient-dependent variables
529 *J. P. Coffey, W. N. Williams, G. E. Turner, P. E. Mahan, L. L. Lapointe and C. E. Cornell:* Human bite force discrimination using specific maxillary and mandibular teeth
537 *L. Lemaitre, M. Moors and A. P. van Peteghem:* A mechanistic study of the electrochemical corrosion of the γ_2 phase in dental amalgams. I. Evaluation of the measurements
543 *L. Lemaitre, M. Moors and A. P. van Peteghem:* A mechanistic study of the electrochemical corrosion of the γ_2 phase in dental amalgams. II. Introduction of a model
549 *H. W. van der Glas and D. van Steenberghe:* Comments on standardization of reflex measurements in human masseter muscle, including silent periods
555 *G. A. Grim:* Effect of substrate age on microleakage of dentine adhesive agents
559 *T. W. Örtendahl, R. I. Holland and H. O. E. Röckert:* Studies in oral galvinism. Mercury and copper levels in urine, blood and saliva in submerged electrically cutting divers
575 *T. Muramoto, S. Taguchi, Y. Asazuma, R. Kifune, S. Honma, K. Tsuchida and K. Hara:* Relative influence of plaque control, scaling and root planing on occlusal sounds
581 *Y. Akagawa, T. Takata, T. Matsumoto, H. Nikai and H. Tsuru:* Correlation between clinical and histological evaluations of the peri-implant gingiva around the single-crystal sapphire endosseous implant
589 *P. R. Mezger, M. A. van't Hof, M. M. A. Vrijhoef, E. J. S. Gravenmade and E. H. Greener:* Effect of mucin on the corrosion behaviour of dental casting alloys
597 *R. Liberman, A. Ben-Amar, M. Urstein, G. Gontar and S. Fitzig:* Conditioning of root canals prior to dowel cementation with composite luting cement and two dentine adhesive systems

603 *J. W. Farah, T. R. G. Craig and K. A. Meroueh:* Finite element analysis of three- and four-unit bridges

613 *E. Tadmor, P. Poitou and I. Gedalia: In vitro* decalcification of human surface enamel pretreated with toothpaste slurries
